04/26/16 16:53 I observed both "dexter" and "bansky" kennel fighting, both dogs were barking/growling excessively at each other and jumping up at the kennel doors trying to get to each other, both dogs appeared very excitable and frothing at the mouth. I moved "bansky" over to another kennel.NR

04/27/16 10:01 Emailed Santa Barbara. They are unable to take this dog back to their shelter. Discussed a possible foster option with Sue Miller and Erica to see if he would do better outside of the shelter for two weeks until our next adoption event. kingram

04/28/16 17:59 Posted Dexter to rescue.tlo

4-30-16 retention is met- Dexter is not going to succeed in the shelter environment, Dexter is on my due out report for evaluation, NRA/BHV-no changes in temperament, use caution around other dogs he will attack them-adding days until determined by Assistant Director of what to do next-yost

5-6-16 Retention is met-BH/BO/NRA-this dog is animal aggressive and will not be re-evaluated, dog continues to show aggressive behavior towards other dogs while here at CCAC, Santa Barbara Animal Shelter does not want this dog back, Dexter has lost weight and has been observed jumping and bouncing off the sidewalls of the kennel-use caution when handling this dog as he will charge other kennels with dogs in them-no notes from COT stating a rescue has shown interest-per Chief Miller ok to set and process-yost
